Client Management

Quick and accurate estimating

Payment Tracking

Invoice Creation

File Submision to RIP

Customizable production workflows

BUYER PERSONA

Small	Revenue $500k to $2M Employees 10 to 19 Manual processes RIP-based workflow No MIS/ERP; Lack of IT skill
Medium	Revenue $2M to 55M Employees 20 to 49 Some automation MIS/ERP likely; Some IT skill, maybe outsourced

PROJECT **GOALS**

Develop a design system using the existing Corporate Identity Guide as a basis.

Avoid using tables unless absolutely necessary.

Refrain from using an existing design system. Additionally, all icons must be original.

Implement a clear typographical style.

During the redesign process, the development team will be refactoring the old KnockoutJS code into Angular + Typescript.

Validate all aspects of the product with beta testers.

COMPETITION ANALYSIS

Printing Industrustry	CoreBridge	shopVOX
Generic	monday.com	Trello

CUSTOMER INTERVIEWS

“Develop a UI/UX design that is user-friendly enough for unskilled workers to accurately create quotes”

“Email remains our primary method for receiving customer orders, but currently lacks integration with other systems”

“Address the issue that client communications and approvals can cause production difficulties”

“Shop floor scheduling and supervision is labor-intensive and often lacks crucial information”

“Implement a CRM/marketing automation to enhance client engagement and capitalize on upsell opportunities”

Font Familiy

Open Sans is a humanist sans serif typeface designed by Steve Matteson, Type Director of Ascender Corp. This version contains the complete 897 character set, which includes the standard ISO Latin 1, Latin CE, Greek and Cyrillic character sets. Open Sans was designed with an upright stress, open forms and a neutral, yet friendly appearance. It was optimized for print, web, and mobile interfaces, and has excellent legibility characteristics in its letterforms.

Notes

Est placeat et inventore quam. Illo eos necessitatibus molestiae sunt consequuntur odio. Et dolorem quia incidunt. Ea itaque ipsam corporis aut atque culpa perspiciatis harum aut. Dolor odit quia sapiente reprehenderit dolorum. The ad opens with a shot of the Deda Tape website on a computer screen, with a busy loading symbol in the center. The camera then pans out to reveal a bustling office, with engineers working at their desks and typing on their computers.

A voiceover begins: "At Deda, we're dedicated to bringing you the best in tape manufaturing technology. Our team of engineers works tirelessly to make sure our tape is always up and running, ready to wrap your handlebar and provide helpful insights."

PRODUCT/JOBS DETAILS VIEW

ESTIMATES

1. The print shop owner should have the capability to accurately calculate the cost of production. This includes the finishing, embellishment, as well as shipping and handling costs for any type of product.

2. The range of products can include physical items (hardware), print materials, labor, or a combination of these.

3. The print shop owner should have the ability to create pricing variants. For instance, this could involve different print runs, expedited shipping, and so on.

4. The print buyer should have the option to either approve or reject these pricing variants.
